Anthony is a 45 year old professional wildlife photographer who grew up on the outskirts of Vancouver BC. He moved to Vancouver Island 5 years ago and is the owner and operator of Bucci Tours. Anthony has won multiple photography awards through CAPA Canada and most recently represented Canada in the [4 nations photography competition](#). He has been published in many magazines such as National Geographic, Cover of Canadian Geographic magazine and [many more](#). He has guided for 9 years starting out with birds of prey tours. Now he does marine wildlife tours to Northern Pygmy Owl tours. www.abucciphotography.com Photography Tours & Classes

PRESENTATION:

My presentation is 3 slideshows built into one with pauses in between

- Introduction, About me and what I do and where
- **Marine Wildlife**/Tour slideshow
- Brief discussion on what photography classes I offer
- Questions
 - Short Break

Personal Photography slideshows - **Island Life**

- Short **Island Life Astrophotography**
- **4 year Journey Island Life Coastal Sea Wolves**
- Questions

The three short presentation slideshows all tie in what I do with marine life, Astrophotography is usually in areas I camp waiting for daylight for marine life such as bears and wolves, The 4 year journey is what it took for me to get the once in a lifetime images I got.
